class matter

THERE is a preservation of the unities in the proposition that John L. Sullivan and Jake Kilrain go to Los Angeles to as to which can whip t'other. The pugi. lists, so-called, are as much addicted to wind as the city from whence the suggestion emanates.

In pursuance of his policy to rid the country of its editors, President Harrison has appointed Lyman E. Knapp, a of Oliver Wendell Holmes, left a collection of paintings valued at more than \$100,000. of Alaska. The fact that Mr. Knapp practiced law in connection with his newspaper work furnishes sufficient justification of the president's action.

LIBBIE BEECHLER, the woman who killed H. W. King, Jr., in a hotel at Omaha a few months ago, and for which she was held by a jury to be not accountable because of emotional insanity or some other equally silly plea, is about to go upon the stage. The stage has had many hard blows, but this is one of the worst of them all.

MR. VAN COTT, the newly-appointed postmaster of New York, has taken possession of the office while retaining his seat in the state senate, a proceeding quite in harmony with republican prece dent and practice. There are those among the lawyers of New York who affirm that Mr. Van Cott's course is in vio-firm that Mr. Van Cott's course is in violation of the spirit of the constitution. pertaining to

INDICATIVE of the prosperity that is in store for Montana is the statement of the Railway Age that railway lines in course of construction and projected spleased at being relieved of the cares of construction and projected spleased at being relieved of the cares of contractive for the prosperity that is in gensions, has gone to Fortress Monroe with his wife. He will spend a few days at Laurel, Md., before returning to Chicago, where he will practice law. He within the limits of this territory sum within the limits of this territory sum up 992 miles. The exhibit is a most gratifying one, and is more favorable, according to ratio of population, than that for any other of the territories.

According to the doctrine of Pension
Commissioner Tanner, no physician who
voted for a democrat for delegate to
congress is capable of passing upon the
merits of an application for a pension
for disabilities. While the new appointees for Montana are all physicians
in good standing, it would seem as
though this particular class of appointments should not be made on political
grounds.

The first Arbor Day was observed in Ncbraska seventeen years ago, when 12,000,000 trees were planted. There is now growing in the state 605,000,000 trees. In other

are so slippery that an association has recently been formed called the Society of Horses, and another called the Horse Areident Society.
The proposed plan to receive to most commental observed in Nc-ACCORDING to the doctrine of Pension

THE home-rule principle in appointments to federal offices in the territories had a close call, yesterday, when Maj. Calkins, late of La Porte, Ind., was appointed associate justice of Washington. He has been a resident of Washington but a few months, but as he went thither from Indiana no explanations are necessary. The new justice is a cousin of Richard M. Calkins, of this city, and served several terms in congress.

even the matting were made of the material. To be sure, no matches were ever carried there. Indeed, the room was never

IT is estimated that by the use of improved machinery and by the cultivation of large tracts, wheat can be raised in California at a cost of \$1 an acre. This includes every item, from the plowing and seeding to the bagging and loading of the grain upon the cars. Under ordinary circumstances—that is, farming in small tracts and by old matheds—that A visitor to the white house the other equally observed to the white house the other extracts. cost is vastly greater. It is estimated that 39,000 square miles in California is in small tracts and by old methods-the available for the cultivation of wheat.

THE PUBLIC PRINTER SCANDAL. The print issued by the corporation in this city of which R. B. Harrison is the president rashly springs to the rescue of that gentleman in the matter of his scandalous attempt to use the appointing power of the president of the United States to help him out in his private business. It would have been a mercy to Mr. Harrison had his poor print maintained a becoming silence in the matter, instead of assuming a mien that is a cross between lofty disdain and panicy denial. Not all the wriggling and squirming of this imitation newspaper will avail to conceal the facts. Mr. Harrison has not been heard from in relation to the scandal which now attaches to his name. It is to be expected that he will enter a denial, for which the INDEPENDENT is fully prepared.

"It is not the Journal's purpose to disprove the Independent's charges," says vigor. the champion of the accused. It is a wise conclusion, for the writer of the foregoing words is well aware that it is not in his power to disprove any ef the statements that were embodied in the INDEPENDENT'S article of Tuesday morning, and which, the Journal admits, prove the person who resorts to the methods therein described to be quilty. methods therein described to be guilty esty.

ever, the greater will the weakness of its defense be made apparent. The INDE-PENDENT has seen a wrong being perpe- in his new discovery for consumption, suctrated by a member of the president's ceeded in producing a medicine which is family, in a way which bears every evi- acknowledged by all to be simply marveldence of connivance on the part of the president, and has stated the facts as they exist. In taking that course the Independent has observed "the ethics of journalism" and the ethics of public morality as well. The scandal is not seeknowledged by all to be simply marvel-one that the seeknowledged by all to be simply marvel-one that the seeknowledged by all to be simply marvel-one to be simply marvel-one that the seeknowledged by all to be simply marvel-one that the seeknowled

In Paris there is a room almost com-pletely furnished in celluioid. The cur-tains, the furniture, the door knobs and used. It was only a curiosity, and the man who owned it owned the factory where it was made.

A visitor to the white house the other son is now well on in years and somewhat feeble. She suffers, besides, from a swell-ing of the ankle. Gen. Robert C. Schenck accompanied her to the executive mansion, and carefully assisted her up the stairway. A Pennsylvania botanical society has re-A Pennsylvania botanical society has re-ceived a rose of Jericho from Persia, of which species of flower it is said that when dryjweather is prevalent it wraps itself into a ball, and is to all appearance dead. The wind blows it from the stalk, and it goes bounding along until it reaches a moist spot where it unfolds its leaves, drops its seeds and a garden of roses soon ap-pear.

Queen Victoria, during one of her walks at Biarritz last week, met a nurse maid and a baby. Her majesty stopped and and a baoy. Her majesty stopped and made some pleasant speech about the baby, whereupon the nurse maid—an Englishwoman—was so overwhelmed with awe and confusion that she turned and fled, leaving the baby with the queen, who had to send her gentleman-in-waiting in hot pursuit.

hot pursuit.

Countess Orosy, a lady of the Austrian nobility and one of the finest horsewomen in Europe, has become a circus manager. She lately inherited a fortune of a million guiden, and has built an enormous circus building at Vienna. She hopes to take her troupe to the Paris exposition and exhibit it. Her peculiar fad is encouragd by her friends, who admire her originality and vigor.

methods therein described to be guilty of an attempt to "prostitute the machinery of the government to gain his point."

The Journal can put whatever construction it pleases upon the course of the Independent in this matter. The more it squirms and calls names, however, the greater will the weakness of the commission of scientists of New South Wales appointed to investigate the discovery of M. Pasteur for the extermination of rabbits have made a report of the result of their inquiries. They state that upon experiment they found that rabbits, which had been inoculated with the virus of chicken cholera or which ate food which had been infected with the virus, died, but that the disease was not communicated by one rabbit to another. one rabbit to another.
